MICRO CONCEALABLE

Carrier

The Micro Concealable Carrier is designed for maximum concealment, comfort, and mobility. Engineered for undercover, plainclothes, and executive protection professionals, the Micro Concealable Carrier provides discreet ballistic protection without printing or restricting movement. It's streamlined to disappear under a button-down shirt or suit jacket, even in warm climates.

MOISTURE WICKING,
ANTI-MICROBIAL MESH LINER

SOFT ARMOR
BALLISTIC SHAPES

FEATURES

- ♦ Ultra-Low profile construction with minimal bulk design and precision patterning to eliminate printing under light garments
- ♦ Constructed with durable water-resistant, 4-way stretch material for all-day wear
- ♦ Moisture-wicking, anti-microbial mesh inner liner that draws moisture away from the body for faster cool-down
- ♦ Tailored pattern contours to the body's natural shape for enhanced comfort and concealment
- ♦ Internal plate pocket design accommodates most Level III ICW hard armor plates
- ♦ Clean exterior with reduced seam lines to avoid visibility through clothing
- ♦ No exposed hook-and-loop on outer surfaces, built to avoid snagging on undershirts or dress shirts

Options

- ♦ Available with NIJ 06 Certified Level II or IIIA ballistic packages

Sizes

- ♦ XS - 5XL
