SVL SOFT ARMOR SERIES

Features

- ◇ The SVL series offers exceptional comfort, thinness, and top-tier ballistic performance. Tailored to offer operators an ideal blend of high performance and affordability, it serves as the ultimate solution. Moreover, it ensures heightened protection against a diverse range of special threats, making it a reliable choice for those operating in challenging environments
- ◇ Covered with a 70D nylon ripstop with TPU backing, heat sealed material

CPIIIA-2 SOFT ARMOR SERIES

Features

- Our NIJ Ballistic + Spike Soft Armor Series provides dual protection against both ballistic and spike threats. Designed for combination defense, it safeguards operators from multiple dangers, ensuring enhanced safety. Additionally, it offers increased defense to a wide range of special threats, making it a reliable choice for professionals facing extreme conditions. This material combines exceptional comfort, a lightweight design, and unrestricted mobility, allowing operators to perform at their best while maintaining superior protection.
- Covered with a 70D nylon ripstop with TPU backing, the material is heat-sealed for enhanced durability and protection

D30 TRUST NIMBUS HELMET PAD SYSTEM

Designed for performance and comfort, TRUST Nimbus™ is a lightweight helmet pad system utilized in Slate Solutions ballistic helmet shells. TRUST Nimbus™ couples lightweight design and state of the art comfort with superior impact protection performance. TRUST Nimbus™ exceeds the required level of impact protection in all Slate Solution helmet shell designs.

Each helmet pad in this system features a unique geometry that allows the pad to fit the shape of the head and offers superior deceleration under blunt impact tests vs. market leading competitors. TRUST Nimbus™ can also be integrated as a 7-pad or 9-pad system within most Slate Solutions helmet shells.

Features

- ◇ Lightweight, high performing helmet pad system
- ◇ Integrated Comfort Liner for each pad
- ◇ Performance stability across multiple impacts
- ◇ Available as a 7-pad or 9-pad system
- ◇ Head-side fabrics offer anti-microbial treatment and great moisture-wicking properties
- ◇ Meets SPS hook and loop adhesion requirements, providing strong adhesion into the helmet shell and easy removal when required
- ◇ Available in all Slate Solutions helmet shell designs
- ◇ Moisture-wicking fabric
- ◇ Unique auxetic geometry

HELMET ACCESSORIES

Rails

Our advanced helmet configuration platform allows for the configuration of a unique and versatile rail attachment system which allows for the fast and effective attachment of secure head borne accessories such as audio, video and lighting systems.

The rail attachment is offered as an upgrade across our line of advanced combat systems and can be packaged with the low profile secure attachment shroud for NVG's on the front mount of helmet platforms.

Shroud

Our universal compatible shroud mount provides a secure attachment on the front of it's advanced combat helmet system for the addition of most NVG's, video and illumination equipment. The multi point attachment provides a unique and powerful platform for critical equipment and mission ready deployment.

Hook and Loop

Our universal compatible shroud mount provides a secure attachment on the front of it's advanced combat helmet system for the addition of most NVG's, video and illumination equipment. The multi point attachment provides a unique and powerful platform for critical equipment and mission ready deployment.

Bungees

Our optional bungees with the rails and shroud system, provide the needed support and stabilization for the NVG mount of choice.

BVP PROGRAM

In an era where the safety and effectiveness of law enforcement officers are paramount to community well-being, the Patrick Leahy Bulletproof Vest Partnership (BVP), administered by the U.S. Department of Justice's Bureau of Justice Assistance (BJA), stands as a vital federal initiative designed to equip state, local, and tribal law enforcement agencies with essential protective gear. Named in honor of Senator Patrick Leahy, a longtime champion of officer safety, the BVP provides a unique matching grant program that reimburses up to 50% of the cost of eligible ballistic body armor, enabling agencies to outfit officers with high-quality vests that meet or exceed the National Institute of Justice (NIJ) standards for life-saving protection.
